

JOIN OUR TEAM

of Dedicated WATER TREATMENT Professionals

BROWNFIELDS TO GOLD MINES

McCue Engineering Contractors (“McCue”) is an award-winning Canadian engineering and construction company. We supply leading edge, pre-packaged and custom water and wastewater treatment systems, and have a proven track record of delivery and customer service. We pride ourselves on being nimble, entrepreneurial and responsive. No water problem is too complex.

We are a 50% women owned SME, operated by Environmental Professionals. We are 100% Canadian Owned and we are located in Delta, British Columbia. We foster equity, diversity and inclusion both in the office and in the field.

After 20 years in business, we’re confident we can treat your water.

JOB DESCRIPTION

McCue is seeking a **Skilled Labourer (Full-time)**

If you like working with your hands but you still want to use your brain, you have come to the right place!

Be part of a team of tradespersons, technicians and engineers manufacturing cutting edge water and wastewater treatment systems, and get paid to protect the environment.

Travel on our dime. Our systems are installed in places in Canada most people never have the opportunity to see. Each project is a new experience and a new adventure.

Your responsibilities will be as follows:

- Read and understand complex construction drawings.
- Modify and install equipment inside shipping container modules.
- Install 1" to 12" PVC, Steel, PVC, HDPE, etc. piping to interconnect equipment and modules.

QUALIFICATIONS

In addition to a valid driver’s license, applicants should have the following experience and/or qualifications:

- Direct experience modifying and installing equipment inside shipping containers
- Health & safety focus

Emergency Level 1 First Aid certification will also be an asset.

Drug testing may be required to access some project sites.

APPLY NOW

Please email your resume and cover letter to info@mccuecontracting.com , with the subject line written as “Position Applied For - Full Name.”
